

If you have concerns about "Andropause" or that your testosterone levels may be low, this set of ten simple questions is a good place to start.

Check YES or NO for each of the following questions:

1. Do you have a decrease in libido (sex drive)?	Yes	🗖 No
2. Do you have a lack of energy?	□ Yes	🗖 No
3. Do you have a decrease in strength and/or endurance?	□ Yes	🗖 No
4. Have you lost height?	□ Yes	🗖 No
5. Have you noticed a decreased "enjoyment of life?"	□ Yes	🗖 No
6. Are you sad and/or grumpy?	□ Yes	🗖 No
7. Are your erections less strong?	□ Yes	🗖 No
8. Have you noticed a recent deterioration in your ability to play sports?	□ Yes	🗖 No
9. Are you falling asleep after dinner?	□ Yes	🗖 No
10. Has there been a recent deterioration in your work performance?	□ Yes	🗖 No

If you answered YES to questions 1 or 7 or any 3 other questions, you may be experiencing androgen deficiency (low testosterone levels) and follow up testing may be useful.
